## Summary

Dynamic and results-driven Software Developer with extensive expertise in Python, specializing in the development of high-impact mobile and web applications that enhance performance and elevate user experience. Committed to writing clean, efficient code while employing innovative problem-solving techniques to address complex challenges. Strong advocate for creating intuitive and scalable solutions that align with user needs and drive business success. Proven track record of effective collaboration within teams, consistently delivering projects on time and exceeding expectations.

## Portfolio

https://sidhiqsidhu.github.io/portfolio_new/

## Education

**Periyar University, Salem, Tamilnadu**
Computer Applications
8.4 GPA
Master Degree
**July 2024 - April 2026**

**Sacred Heart College, Tirupattur, Tamilnadu**
Computer Science
7.8 GPA
Bachelor of Science
**June 2021 - April 2024**

**Govt. Boys Hr. Sec. School, Krishnagiri, Tamilnadu**
Computer Science
80.6 GPA
Higher Secondary
**June 2019 - May 2021**

## Experience

**Codveda Technologies**
Python Development Intern (Remote)
Chandrapur, Maharashtra, India
**September 2025 - October 2025**

- Involved in designing, developing, and maintaining Python-based software applications.
- Collaborated with the team to write clean, efficient, and reusable code.
- Supported debugging, testing, and performance optimization of existing modules.
- Enhanced technical skills in Python programming, problem-solving, and software development workflows.

**Viswa Digital Technology**
Data Science and Machine Learning Intern (Remote)
Salem, Tamilnadu
**May 2025 - June 2025**

- Completed internship training focused on Data Science and Machine Learning concepts and applications.
- Gained hands-on experience with data preprocessing, model development, and evaluation techniques.
- Worked on implementing Python-based ML algorithms for data analysis and predictive modeling.
- Strengthened knowledge in statistical analysis, data visualization, and problem-solving.

## Skills

**Programming**

Python | Java | HTML | CSS | PHP

**Tools & Database**

SQL | MongoDB | GIT | Firebase

**Frameworks**

JavaScript | Django | Flutter

**Problem-solving**

**Time management**

**Team Leading**

**Communication Skill**

## Projects

**Times Up Mobile App**

The *Times Up* mobile application is a productivity and digital wellbeing tool designed to help users monitor and control their screen time. Built using **Flutter** for cross-platform compatibility and **Firebase** for backend support, the app enables users to set time limits for app usage, track daily activity, and receive alerts when their usage time is over. It includes features such as **user authentication**, **real-time database integration**, and an **intuitive user interface** for smooth navigation. The goal of the app is to promote healthy digital habits and enhance focus by reducing smartphone distractions.

## Certifications

**Full-Stack Development**
**March 2024**

**Diploma in Computer Applications (DCA)**
**June 2023**

## Languages

**English**

**Hindi**

**Tamil**

## Interests

**Learning New Technologies**

**Sports**

**Listen Music**

**Watching Movies**
